Features

Return on investment

OUTCOMES

Your organization will have a solid foundation upon which to build and execute.

Planning for the future and identifying attainable goals will be much simpler.

Nubik QuickStarts

For Non-Profit Organizations

Take advantage of a production-ready solution in **just ten days.**

Leverage fundamental NPSP features with a program designed to support best practices for non-profits.

Get your team up-to-speed in no time with discovery workshops, file updates, training and user testing.

Improve community engagement

- Manage donor and affiliate relationships.
- Track grants, donations, pledges and soft credits.
- Coordinate volunteers and campaigns.
- Reduce input error with batch gift entries.
- Oversee your finances with comprehensive reports.

Our Solution

We carefully crafted our QuickStart plan and scope for non-profits to be completed within 10 consecutive business days.

One of our certified consultants will clearly define the Acceptance Criteria and provide context-based training videos to help speed up testing and time to market.
